We want a 'Carbon Cash-Back' program that uses a revenue-neutral, market-based carbon price with cash-back rebates to all NH residents aged 18 and over. Carbon cash-back programs provide significant economic benefits to consumers by correcting long-standing market-failures and delivering rapid reductions from harmful emissions. We understand that if the federal bill passes there will be no duplication of carbon pricing fees. We expect our representatives to lead in the is critical moment for the health and well-being of our citizens and for the protection of New Hampshire's natural resources upon which we all rely.
